

ANTHONY R

Data Scientist | Machine Learning | Python

Hosur, Tamil Nadu | 8825667031 | antonyr943@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Scientist with 2+ years of engineering experience in manufacturing quality and process analytics, transitioning into Data Science with expertise in Python, SQL, Machine Learning, Deep Learning, and Data Analysis. Completed an intensive Data Science program at HCL GUVI with hands-on experience in data cleaning, EDA, statistical analysis, predictive modelling, and data visualization. Built one capstone project and five machine learning projects covering demand forecasting, classification, clustering, NLP, and recommendation systems. Seeking an entry-level Data Scientist role to apply analytical and machine learning skills to real-world business problems.

TECHNICAL SKILLS

Languages / DB: Python, SQL

Libraries / Frameworks: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Streamlit, NLTK, Matplotlib, Seaborn

Machine Learning / DL: Regression, Classification, Clustering, Time-Series (LSTM, RNN), CNN, Transformers, EDA, NLP, Computer vision

Tools / Analytics: Power BI, GitHub, Jupyter Notebook, Statistics, Data Preprocessing, Model Evaluation, Feature Engineering

PROJECTS — HCL GUVI, IIT-M PARVARTAK DATA SCIENCE PROGRAM

Capstone1: M5 Enterprise Retail Intelligence Platform

Jul 2026

- Built an end-to-end **SKU-level demand forecasting and inventory optimization system** using an ensemble of **LightGBM** and **CatBoost** models.
- Achieved an **R² of 0.687** with a **WRMSSE score of 0.954274** for demand forecasting performance.
- Performed **data merging, data cleaning, EDA, feature engineering, model training, and evaluation**, followed by **Streamlit deployment**.
- Tech Stack:** Python, Pandas, NumPy, Scikit-learn, LightGBM, CatBoost, Streamlit

Mini Projects:

- Multi-Horizon Bitcoin Price Forecasting** — Applied **LSTM, CNN, RNN, and Transformer-based approaches** for time-series cryptocurrency price forecasting.
- IMDb Movie Recommendation System** — Developed a **content-based recommendation system** using **NLP, Scikit-learn, Pandas, and Streamlit**.
- Fitbit Calorie Burn Prediction & Workout Clustering** — Applied **Random Forest, PCA, and K-Means** for supervised calorie prediction and unsupervised workout pattern clustering.
- Data-Driven Stock Analysis** — Performed stock data analysis and developed an interactive dashboard using **Python, Streamlit, and Power BI**.
- Uber Eats Bangalore Restaurant Intelligence** — Built a restaurant analytics and decision-support system using **Python, SQL, Pandas, NumPy, and Streamlit**.

WORK EXPERIENCE

Engineer — Warehouse Head and Customer Representative

Customer: Ashok Leyland, Hosur and Chennai.

Oct 2025 – Present

Sanden Vikas (India) Pvt Ltd

Faridabad, Haryana

- "Managed and structured operational datasets for process pipelines, performing data validation to back day-to-day warehouse decisions."
- Collaborated with **production, quality, and logistics teams** to investigate operational issues and implement process improvements.

Quality & Reliability Engineer — Customer End [Trainee]

Customer: TVS Motor Company, Hosur.

Feb 2024 – Oct 2025

Uno Minda Ltd, Seating Division

Hosur, Tamil Nadu

- "Performed **root-cause analysis and statistical evaluation** on customer defect data to identify recurring anomalies."
- Monitored **customer quality requirements and production quality standards**.
- Coordinated with **Production, Quality, Engineering, and Logistics teams** for corrective and preventive actions.

EDUCATION

B.E., Electronics and Communication Engineering

2020 - 2024

Vandayar Engineering College, Anna University — Tanjore, Tamil Nadu

CERTIFICATIONS

- Master of Data Science Program — HCL GUVI, IIT-M PARVARTAK (2026)
- Advanced Programming Professional — IIT-M PARVARTAK (2026)
- Microsoft Power BI — HCL GUVI (2026)
- Python — HCL GUVI (2026)
